

# CONNECTING TO THE CLOUD

DCIA Conference within CES  
LVCC North Hall N262  
January 8, 2014

## 2:30 PM - The Impact on Telecommunications Industries of Cloud Computing.

What does cloud computing mean to broadband network operators and mobile carriers in terms of managing their intellectual property (IP), allocating network resources, and developing and provisioning new services?

– Panel Discussion with Sari Lafferty, DCIA

### Panelists & Moderator

**LARRY FREEDMAN** is a Partner in the Washington, DC office of Edwards Wildman Palmer, a 625 attorney international law firm. Larry is a Member of the Technology, Media, and Telecommunications Group and leads the firm's Cloud Computing Group.

**JAY GLEASON** is Cloud Solutions Manager at Sprint. Jay is an 18 year veteran of delivering data center technology solutions for the support of business critical processes. Jay has been delivering value-adding cloud-based solutions since 2006.

**ANDY GOTTLIEB** is Vice President of Product Management at Aryaka Networks where he leads WAN/LAN switching and routing. Prior to Aryaka, he founded Talari Networks, a pioneer in WAN Virtualization technology, and served as its first CEO.

**DAVID HASSOUN** is the Founder of RealEyes Media, a digital media firm that focuses on interactive motion and advanced Flash and Flex platform applications. David has a passion for motion media, the power of video, and the challenges of interactivity.

**GRANT KIRKWOOD** is the Founder of Unitas Global, which he founded to serve the need for managed end-to-end information technology (IT) outsourcing solutions that rely heavily on IT infrastructure, for customers that don't want to focus on IT.

**SARI LAFFERTY** leads Business Affairs at the DCIA. She previously served in management roles at software developer E-Star Communications; and holds an MBA in Marketing from Georgia State, and a BA from Cornell University.
