

LTDnetwork Receives 2006 DCIA Trendsetter's Award

Presentation Accepted by Chairman Allan Klepfisz at First Annual P2P MEDIA SUMMIT WDC

Washington, DC – June 22, 2006 – The Distributed Computing Industry Association (www.DCIA.info), a trade organization with seventy-five (75) Members representing peer-to-peer (P2P) software providers, content rights holders, and service-and-support companies, announced today that LTDnetwork is the recipient of its 2006 DCIA Trendsetter's Award .

The award was presented this afternoon to LTDnetwork Chairman & CEO Allan Klepfisz at the first annual P2P MEDIA SUMMIT WDC in McLean, VA.

"The DCIA Trendsetter's Award is presented annually to that company which sets the pace in the advancement of distributed computing technologies for commercial purposes," said DCIA CEO Marty Lafferty in making the award.

"LTDnetwork, developer and distributor of Qtrax, signed EMI as the first major music company to make its catalog available to the world's first advertising-supported P2P music distribution service. Qtrax will not only provide this licensed free-to-user service, but also offer consumers a premium P2P subscription product and the ability to purchase songs and albums a la carte."

The P2P MEDIA SUMMIT WDC featured keynotes from top P2P software distributors, panels of industry leaders, a luncheon session, and networking cocktail reception with live entertainment.

About the DCIA

The Distributed Computing Industry Association (DCIA) is a non-profit trade organization focused on commercial development of peer-to-peer (P2P) file sharing and related distributed computing technologies.

DCIA Membership is organized into three Groups: Content, Operations, and Platform. The DCIA conducts working groups and special projects, such as the Consumer Disclosures Working Group (CDWG), P2P Digital Watermark Working Group (PDWG), P2P PATROL, and the P2P Revenue Engine (P2PRE). It also publishes the weekly online newsletter DCINFO.

About LTDnetwork

Founded in October 2000, LTDnetwork inc, a US based company, has spent the last three years creating unique proprietary software at its Australian subsidiary in Melbourne specializing in the development of innovative technologies, software, and services for online e-tailers, media, and marketing companies.

LTDnetwork's vision is to provide online businesses and third party solution providers with "innovative technologies, software, and services which always target the consumer with the right message at the right time", in what have now become the "hottest areas" for software applications: music downloading, automatic price comparison and highly targeted advertising.

LTDnetwork is a fully owned subsidiary of Brilliant Technologies Inc. formerly known as Advanced Technology Industries. Brilliant Technologies is a technology holding company devoted to technology identification and acquisition, as well as research and development leading to commercialization of innovative products.
